

JULT's annual meeting will be held on May 7th at Underhill Town Hall. Lisa Gannon of the New England Antiquities Research Association will be our guest speaker, providing information on the cairns at Wolfrun Natural Area. The meeting begins at 7 p.m. but guests are encouraged to arrive at 6:30 for refreshments and conversation.

Other dates to put on your calendar are April 8th for an apple pruning workshop at Wolfrun Natural Area and May 27th for Evergreen Erb's annual bird walk at Mills Riverside Park. Be sure to check out the summer issue of Vermont Life which will feature a story on the Barber Farm.

Although JULT is not directly involved, we have been invited to assist Vermont Land Trust on their current project to preserve the Bolton Valley Nordic and Backcountry lands. VLT has slightly over a year to raise \$1,050,000 and JULT has offered to help them with publicity. Visit VLT's website at www.vlt.org/ for more information.
