

The JULT board has decided to transfer some of our funds to the Vermont Community Loan Fund where it can get interest while the money is loaned to small businesses and other non-profits as a way of paying it forward.

Our fall newsletter will be coming out shortly and will be followed by a membership renewal letter in early November. As always, we remind our current members that without membership income, we would be unable to engage in any land stewardship activities. The results of some of that stewardship will be on display on October 29 when we host a walk at Wolfrun Natural Area to see the results of a patch cut which was done on the property.

The JULT board is excited about the Underhill Jericho Fire Department's donation of the Rivers property to the town of Jericho. We hope that we can be part of the conservation and help preserve the beautiful gateway into Jericho Center.
